Good Morning,

Just a few things I would like to make you aware of.

Digital Cookie is experiencing a glitch listing incorrect girls in troops. They are aware of the problem and will have it fixed later today.

If you still need to verify that your troop roster is correct, look on the eBudde girl tab. Please email awickel@gsutah.org with changes. If a girl is no longer active in your troop but is still a member of your troop she cannot be removed from your roster. This will not impact your PGA for your troop. Remember, girls cannot move troops once they have begun selling with a troop.

Troops can begin securing and entering non-council secured cookie booths in eBudde beginning January 16th. Be sure to have the manager of the location sign the "My Booth Sales" form found on the gsutah.org website, then enter the information into eBudde for approval.

Do not approach council secured locations. If they are not in eBudde, under the booth sites tab, we have not received approval yet or they are not allowing booths this year.
