

February 4, 2022, eBudde email

Dear GSU volunteers, families, and Girl Scout entrepreneurs,

Thank you for being patient as we continue to navigate what we know has been a challenging and frustrating cookie season so far. We have been informed by our baker that they are experiencing additional production challenges that have impacted the availability of some additional Girl Scout Cookies this season. Please read the below information carefully and do not hesitate to reach out if you have questions.

- Girl Scout S'mores
 - If you have already ordered S'mores, girl and troop orders will be filled based on what was submitted with initial orders this week. Starting on February 4, they will be removed from the Digital Order Card (DOC) for shipped and girl delivery. We are also anticipating a limited supply at our cupboards, which will be used to fill Goal Getter Card orders for our girls.

We understand this information is not ideal and we are doing everything possible to ensure every Girl Scout can bring these flavors to their customers. While we hope that there will not be additional challenges this season, we will continue to do our best to mitigate the impact on our girls and troops. We will be sure to provide updates if needed. We ask that you continue to help spread the word that we have many other flavors available and to check with their local Girl Scout.

Thank you so much for your support of girls in this entrepreneurship program!
