### **A Letter from a Girl Scout**

Last month, one of our girl members received a scholarship to attend camp and reached out to share her thanks.

*I saw the email today telling me I received the campership for my upcoming backpacking and sailing camp! I'm very grateful and excited. The way the activity credits and scholarships were applied is greatly appreciated.*

*Please tell everyone at Girl Scouts of Utah how grateful I am.*

*Thank you so much,  
a Girl Scout*

Donations from donors like you help GSU provide opportunities for girls all over Utah to explore the outdoors, learn new skills, and make memories that can last a lifetime.

## **Camping for a Cause is almost SOLD OUT!**

We've been thrilled to see the enthusiasm and interest from our community since announcing the return of this one-of-a-kind weekend.

If you don't get a chance to attend and would still like to be involved, consider making a donation to our silent auction (a gift basket, an excursion, tickets to an event, gift card to a restaurant, etc...). The Camping For a Cause silent auction generates thousands of dollars – all of which goes directly to girl outdoor programming.

For more information about donations or sponsorship opportunities, please contact Casey Logan at [clogan@gsuath.org](mailto:clogan@gsuath.org).

### **Partner Spotlight: AmeriCorps NCCC**

A team of eight AmeriCorps NCCC members spent three weeks at Trefoil Ranch working on infrastructure improvements throughout camp. They are currently spending three weeks at Camp Cloud Rim working on snow removal, platform repairs, and cabin/tent setup.

While at Trefoil Ranch, they replaced the old fencing around the horse arena, stained the lodge and cabins, and set up tents for incoming campers. They also removed thistles and invasive weeds from the camp. A highlight of their time at camp was participating in a minicamp where they interacted with campers through activities such as hiking, painting, and making imprints of plants.

We are so grateful for their hard work in preparing our camps for incoming campers! Thanks to their efforts, we are ready to welcome our campers and deliver lifechanging outdoor programming.

### **Program Spotlight: Robots Rock**

In May, Daisies, Brownies, and Juniors explored the exciting world of robotics

through two hands-on robotics experiences. First, a local high school robotics team showed the girls how robots work, allowed them the opportunity to drive a real robot, and taught basic programming. Then, a high school drone team led by a Girl Scout Ambassador helped the girls fly drones. The girls ended the afternoon by building robot prototypes and earning the Designing Robots badge. STEM programs like Robots Rock introduce girls to the vast world of STEM opportunities and teach hard skills like programming.
