**Cookie Corner**

**It's time for Raspberry Rally and shipped cookies to shine!**

On Monday, February 27, at 12:00 a.m. (CST), girls will be able to start selling cookies that can be shipped directly to customers. In addition, customers will be able to start buying the new Raspberry Rally limited supply cookie.

Make sure to send your customers reminder emails through Digital Cookie letting them know that Direct Shipping is now available for all cookie varieties. A

prepared email template is available right in Digital Cookie to help. As a reminder, the Raspberry Rally will be sold exclusively on Digital Cookie while supplies last with direct shipping to the customer's door. They are not available through Digital Cookie girl delivery and will not be sold at booths. Digital Cookie Direct Shipping allows Girl Scouts to enhance their cookie-selling experience while teaching them less time-consuming ways to market to the public. If you have any questions, please email [info@gsutah.org](mailto:info@gsutah.org) or call (801) 265-8472.

## Programs & Activities

### Get your photo featured on the new GSU website

Girl Scouts of Utah members have a chance to have their photos featured on our website.

We're moving to a new website this year and would like to highlight our local Girl Scouts. Submit your photos for the website today. Plus, if you share a story with your picture, you could be featured on our social media channels, in donor communications, or in some other public way.

Before you share your photo and optional story, please keep the following items in mind:

- You must have permission from the adults and caregivers of the minors pictured.
- Submission of a photo does not guarantee use on the website.
- If possible, please avoid blurry, low-quality images.

**Action needed:** Submit your [Girl Scout photos](#) by March 31.

---

### Program Spotlight: STEAM Sampler

Join us on April 5 for an evening of science, arts, and engineering. We're bringing our activities to the Daybreak Community Center for an evening of science, art, and engineering on April 5. We'll explore how art and science collide, craft something sparkly, explore tessellations, and build a kinetic sculpture. We'll even

have a society of women engineers join us for this program.

**Action needed:** Register for [STEAM Sampler](#) by March 28.
