3 DO NOT GIVE THESE THING TO YOUR DOGS!

~ Grapes and Raisins
~ Chocolate
~ Caffeine
~ Onions, Garlic and Chives
~ Macadamia Nuts
~ Xylitol (Artificial Sweeteners)
~ Before you feed your dog anything, check to make sure it's safe to consume. While also considering feeding your dog too much of anything can be bad as well.

Congrats!

YOU'VE ADOPTED A DOG

~ from a non-kill shelter ~

Why is this so important?

-Adopting-

When you adopt, you're giving your pet a second chance. You aren't just experiencing the wonderful feeling of giving your pet a forever home, but also the bond between you and your pet will be truly priceless.

-Non-Kill Shelter-

Since non-kill shelters have a hard time making room for new dogs, they can get overcrowded easily. By adopting from a non-kill shelter, you aren't just giving a pet a home, you're making room for more animals in need.

Statistics

~ Utah Does A Great Job ~

~ Utah shelters are about to become the first no-kill state in the West, having only 2 kill shelters out of the 59 shelters found in Utah. Providing Utah with a 90%+ save rate.

~ Governor Spencer Cox signed Senate Bill 201, requiring animal shelters do all they can for their animals before euthanizing them.

~ While dogs were saved statewide, with a percentage of 95. About 1,200 cats were still killed in 2025, due to a lack of trap-neuter-return for communities.

~ Best Friends Animal Society says that if only one in every thousand Utah home-owners adopt instead of buying a pet, unecessarily killing shelter animals would be gone completely. Congrats, you're helping!

Wonderful Pets

Amazing Cat: Pudding

The night Pudding got adopted, he ended up saving his owner, Amy's, life. As a type I diabetic, Amy suffered a severe diabetic seizure in her sleep. Pudding immediately pounced on her in attempt to wake her up. When she awoke, Pudding realized she was still paralyzed and woke up her son, Ethan. Ethan woke up, rushed to his mother, and gave her life-saving medication just in time.

Awesome Dog: Joe

Joe's owner, Deborah, was home resting after a recent car accident when she forgot to shut her front door. A black bear took the chance and waltzed into her home. Deborah's six pound dog was not agreeing with the intruder, the straw that broke the camels back was when the bear started helping himself to Joe's food. Joe chased the bear out of the house, saving his owner and him.

Reminders

Name of Pet

Age: Breed: Gender:

- ○ Potty Trained
- ○ Crate Trained
- ○ Friendly with Kids
- ○ Cat Friendly
- ○ Dog Friendly
- ○ Woman Friendly
- ○ Man Friendly
- ○ Shy
- ○ Playful

Adoption Date

Thank you so much for adopting an animal from a non-kill shelter! Your contribution doesn't just save the pet you decieded to take home it saves other lives too!
